Technical Paper Presentation

Apoorva Shenoy

Technical Specialist @ AT&T | Ex - Accenture | Ex - TCS
Karnataka, India

Summary

I am a passionate IT professional and a positive, self-motivated individual with 6+ years of experience in the IT industry.

I believe that life is about solving problems, telling stories, and making a difference. Over the past six years, I have refined and strengthened my skills in delivering robust, scalable solutions while adapting to evolving technologies and business needs.

My goal is to leverage my technical expertise and business acumen to tackle new and exciting challenges. I strive to blend passion with purpose, transforming ideas into innovative solutions that drive impact and progress.

I am committed to continuous learning and innovation, embracing challenges as opportunities to grow. My vision is to create technology that not only drives efficiency and fosters collaboration but also enriches the experiences of the people it serves.

Experience

AT&T

Technical Specialist

September 2023 - Present (2 years 3 months)

Bengaluru, Karnataka, India

✓#Frontend Development:

React JS Development: Developed a React JS application for database operations management in performance-critical environments, improving data handling efficiency and user interaction.

Angular Development: Created dynamic, responsive user interfaces using Angular, enhancing user experience and application performance.

.NET Development: Built and maintained frontend components using .NET technologies, ensuring smooth integration with backend services.

✓#Backend Development :

Microservices with Spring Boot: Designed and deployed microservices-based architectures using Java Spring Boot for performance-critical applications, ensuring scalability, fault tolerance, and efficient resource utilization.

Snowflake Connectivity: Developed seamless data integration solutions, ensuring efficient Snowflake connectivity from the frontend.

Java Development with WildFly: Implemented robust backend solutions using Java and WildFly, optimizing server-side performance and scaling

.NET Core REST APIs: Created robust and scalable REST APIs using .NET Core, ensuring reliable communication between frontend and backend systems.

SQL and PL/SQL: Knowledgeable in writing and optimizing database queries, procedures, and functions, ensuring efficient data processing and seamless backend integration.

✓#Cloud Services & DevOps:

Azure Kubernetes Service (AKS): Deployed containerized applications on Azure Kubernetes Service, enhancing scalability, reliability, and resource optimization.

Azure App Services: Deployed and managed applications using Azure App Services, ensuring high availability and scalability of web applications.

Jenkins CI/CD pipelines: Utilised Jenkins to automate build, test, and deployment processes, improving delivery speed and consistency.

✓#Full-Stack Responsibilities:

End-to-End Development: Managed full lifecycle software development, from requirements gathering to production deployment and post-release support.

Accenture

2 years

Senior Software Engineer

April 2022 - August 2023 (1 year 5 months)

Bengaluru, Karnataka, India

Team Leadership: Led agile teams, ensuring timely delivery of high-quality solutions while mentoring junior members.

SDLC Management: Oversaw end-to-end software development lifecycle from design to deployment.

Angular Development: Built intuitive user interfaces to enhance user experience.

REST API Development: Created RESTful APIs for seamless frontend-backend communication.

.NET Core Expertise: Developed scalable backend services using .NET Core.

Software Development: Contributed to innovative software solutions with cross-functional teams.

Software Engineer

September 2021 - March 2022 (7 months)

Bengaluru, Karnataka, India

Tata Consultancy Services

2 years 5 months

System Engineer

July 2020 - August 2021 (1 year 2 months)

Bengaluru, Karnataka, India

Assistant System Engineer - Developer

April 2019 - June 2020 (1 year 3 months)

Bengaluru, Karnataka, India

Client- Landmark Group

- Developer Role , Part of Technology and Innovation development team.

- Working on developing a particular process workflow manager tool which deals with the R2R (Record to Report) end-to-end process of Finance and Accounting (F&A).
- Working on the API Integration and web services.
- Participation in Project Planning and Implementing the Use-case scenario.
- Part of the Software Security Assessment (SSA) of the tool with respect to Fortify Scan, Web Inspect and VAPT(Vulnerability and Penetration Testing) .
- Working on the High Level Design Document (HDD) and Low Level Design Document (LLD).

Assistant Systems Engineer
June 2019 - April 2020 (11 months)

Client: Landmark Group

- Developer role in a retail project to fulfill various new requirements and enhancement to the application.
- Participated in project planning and requirement gathering with client.
- Implementing the use-case scenario's.
- Have been part of sentinel data migration activity of the application.
- Prepared Knowledge asset documents.

Fiabiliti Network Solutions Private Limited
Internship Trainee
July 2017 - August 2017 (2 months)
Bengaluru, Karnataka, India

Python Packages: Utilized NumPy, Pandas, and Matplotlib for data analysis and visualization.

Team Collaboration: Worked collaboratively in cross-functional teams to develop real-time applications.

Real-Time Apps: Contributed to the development of scalable and responsive web solutions using Django and Flask.

Problem Solving: Identified and resolved technical challenges, enhancing application functionality.

Adaptability: Quickly learned new technologies, demonstrating a proactive approach to skill development.

Education

Visvesvaraya Technological University

Bachelor of Technology - BTech, Computer science engineering · (August 2015 - September 2019)

Kendriya Vidyalaya

PUC, Physics , chemistry , Mathematics , Computer Science · (April 2013 - April 2015)

Kendriya Vidyalaya

SSLC, X · (April 2012 - March 2013)
